Let me ask around the City and find out who might be involved with projects in this area

Dan England  
City of Modesto

Mr. England,

To remind you, you helped me in 2017 with the well that was paved over by WF Builders on our Groundwater Superfund project in Modesto. We have recently come across another well, MW-37B, that has also been paved over. Based on what we have seen in the field it was done during a road resurfacing and was not associated with any development activities. The well is on Virginia Ave, north of West Morris. I have attached a figure for reference.

I would like to talk to you regarding this well and what needs to be done to locate and/repair the well. I can be reached at 707-246-5399. Thank you.

John McGuire, PMP
